

Darling Lace

Inspired by antique lacework, intricate beading, romantic silks and crushed velvets from a vintage era, Darling Lace delivers a romantic collection in several color palettes. The picture below is just a snapshot of what this collection offers. There are blacks, saturated grays, blues, pastels, pinks and tangerines to provide lots of options for dynamic quilts. As always, Northcott is pushing the boundaries of what can be achieved in batiks. This collection was crafted with fine-line motifs and hand carved screens created by master tjap makers. The stripe in this collection is a tribute to the amazing artists in Indonesia as it must go through five processes to achieve this look.

Visit BanyanBatiks.com to see the full collection, and use the product finder tool to locate a shop near you that carries these unique batiks!
