DP23844-28 | Feature Mixed Roses | Dark Pink Multi

23850-10 | Stripe | White Multi

DP23849-74 | Leaves | Green

Budding Romance

by Northcott Studio

Created by the Northcott Studio, Budding Romance embodies an abundance of lush roses, petals and leaves creating a mood of romantic nostalgia. The fresh reds, pinks and greens as well as white on whites provide striking contrast from the lightest lights to darkest darks adding depth and dimension providing visually dynamic contrast to any project. Additionally, a selection of Toscana prints coordinates beautifully with the collection.

Quilts

- For this collection it would be great to see a simple heart quilt. There is a very popular bargello heart quilt by Ribbon Quilts called Melinda's heart. This would be a great quilt to show the values created by the various prints. See attached image.
- There are many other heart quilts attached for reference.
- It would also be good to see a completely different type of quilt so that the collection is not pigeon-holed as Valentines.
- Perhaps we could do a free download for a heart block with a small project for Valentines to drive business to the website. Following are a few tutorials I found online that could be referenced
