COVENT GARDEN

by Deborah Edwards

When it comes to floral painting, few have surpassed the masters of the 17th century, known for their extraordinary detail, striking color, delicate highlights and dramatic shadows. Covent Garden, by Deborah Edwards celebrates the masters in this luxurious floral collection, digitally printed to capture the beauty of the original work. The exquisitely detailed panel and border stripe are complemented by a wide variety of stunning florals, damasks and textures featuring shades of classic black, botanical green and neutrals.
