Spirit of the Skies

by Rick Kelley

Spirit of the Skies is the latest collection created by internationally renowned wildlife painter, Rick Kelley. Echoing Rick's intricately detailed original, the printed panel captures majestic eagles soaring above the rushing water preparing for a fresh catch, framed by magnificent evergreens and massive rock formations. The eagle toss is a perfect companion to the panel while a selection of Naturescape coordinates complete the collection. Naturescape prints include evergreens, rushing water and stone textures mirroring the natural landscape. Characterized by soothing blues, grays, greens and whites, Spirit of the Skies reflects the calming palette found in nature.
