# CANYON CREEK

by Nina Djuric

Created by Nina Djuric, Canyon Creek is a sophisticated southwest lodge collection inspired by home decor. The collection features a modern palette off-white, grays and misty plums in a wide range of values. The stunning panel design makes an ideal wall hanging or focal point for quilts. The panel plays the starring role, while the border print, animal prints and southwest patterns play a supporting role. A variety of mix and match blenders complete the coordinations. As well, a selection of Northcott's popular crackle prints coordinate beautifully with Canyon Creek.
