September Morning

by Deborah Edwards

Created by Deborah Edwards, September Morning is characterized by an impressionistic style that captures radiant hues that emulate the light and warmth of the late summer sun. Painterly trees in vibrant shades of red, orange, yellow and pink provide stunning contrast to the dark brown branches in the featured panel and all-over print. A selection of stunning painterly textures from the palest pales to the deepest darks complete the collection. In addition, the collection includes a beautiful quick sew bag panel printed on premium quality canvas and a stunning 43" running yardage border print of the colorful trees featured in the panel. Mix the collection with Northcott's Canvas basics for additional variety in color and value!
