24139-74 | Diagonal Plaid | Green

24142-74 | Holly Blender | Green

# Old Time Christmas by Liza Bea

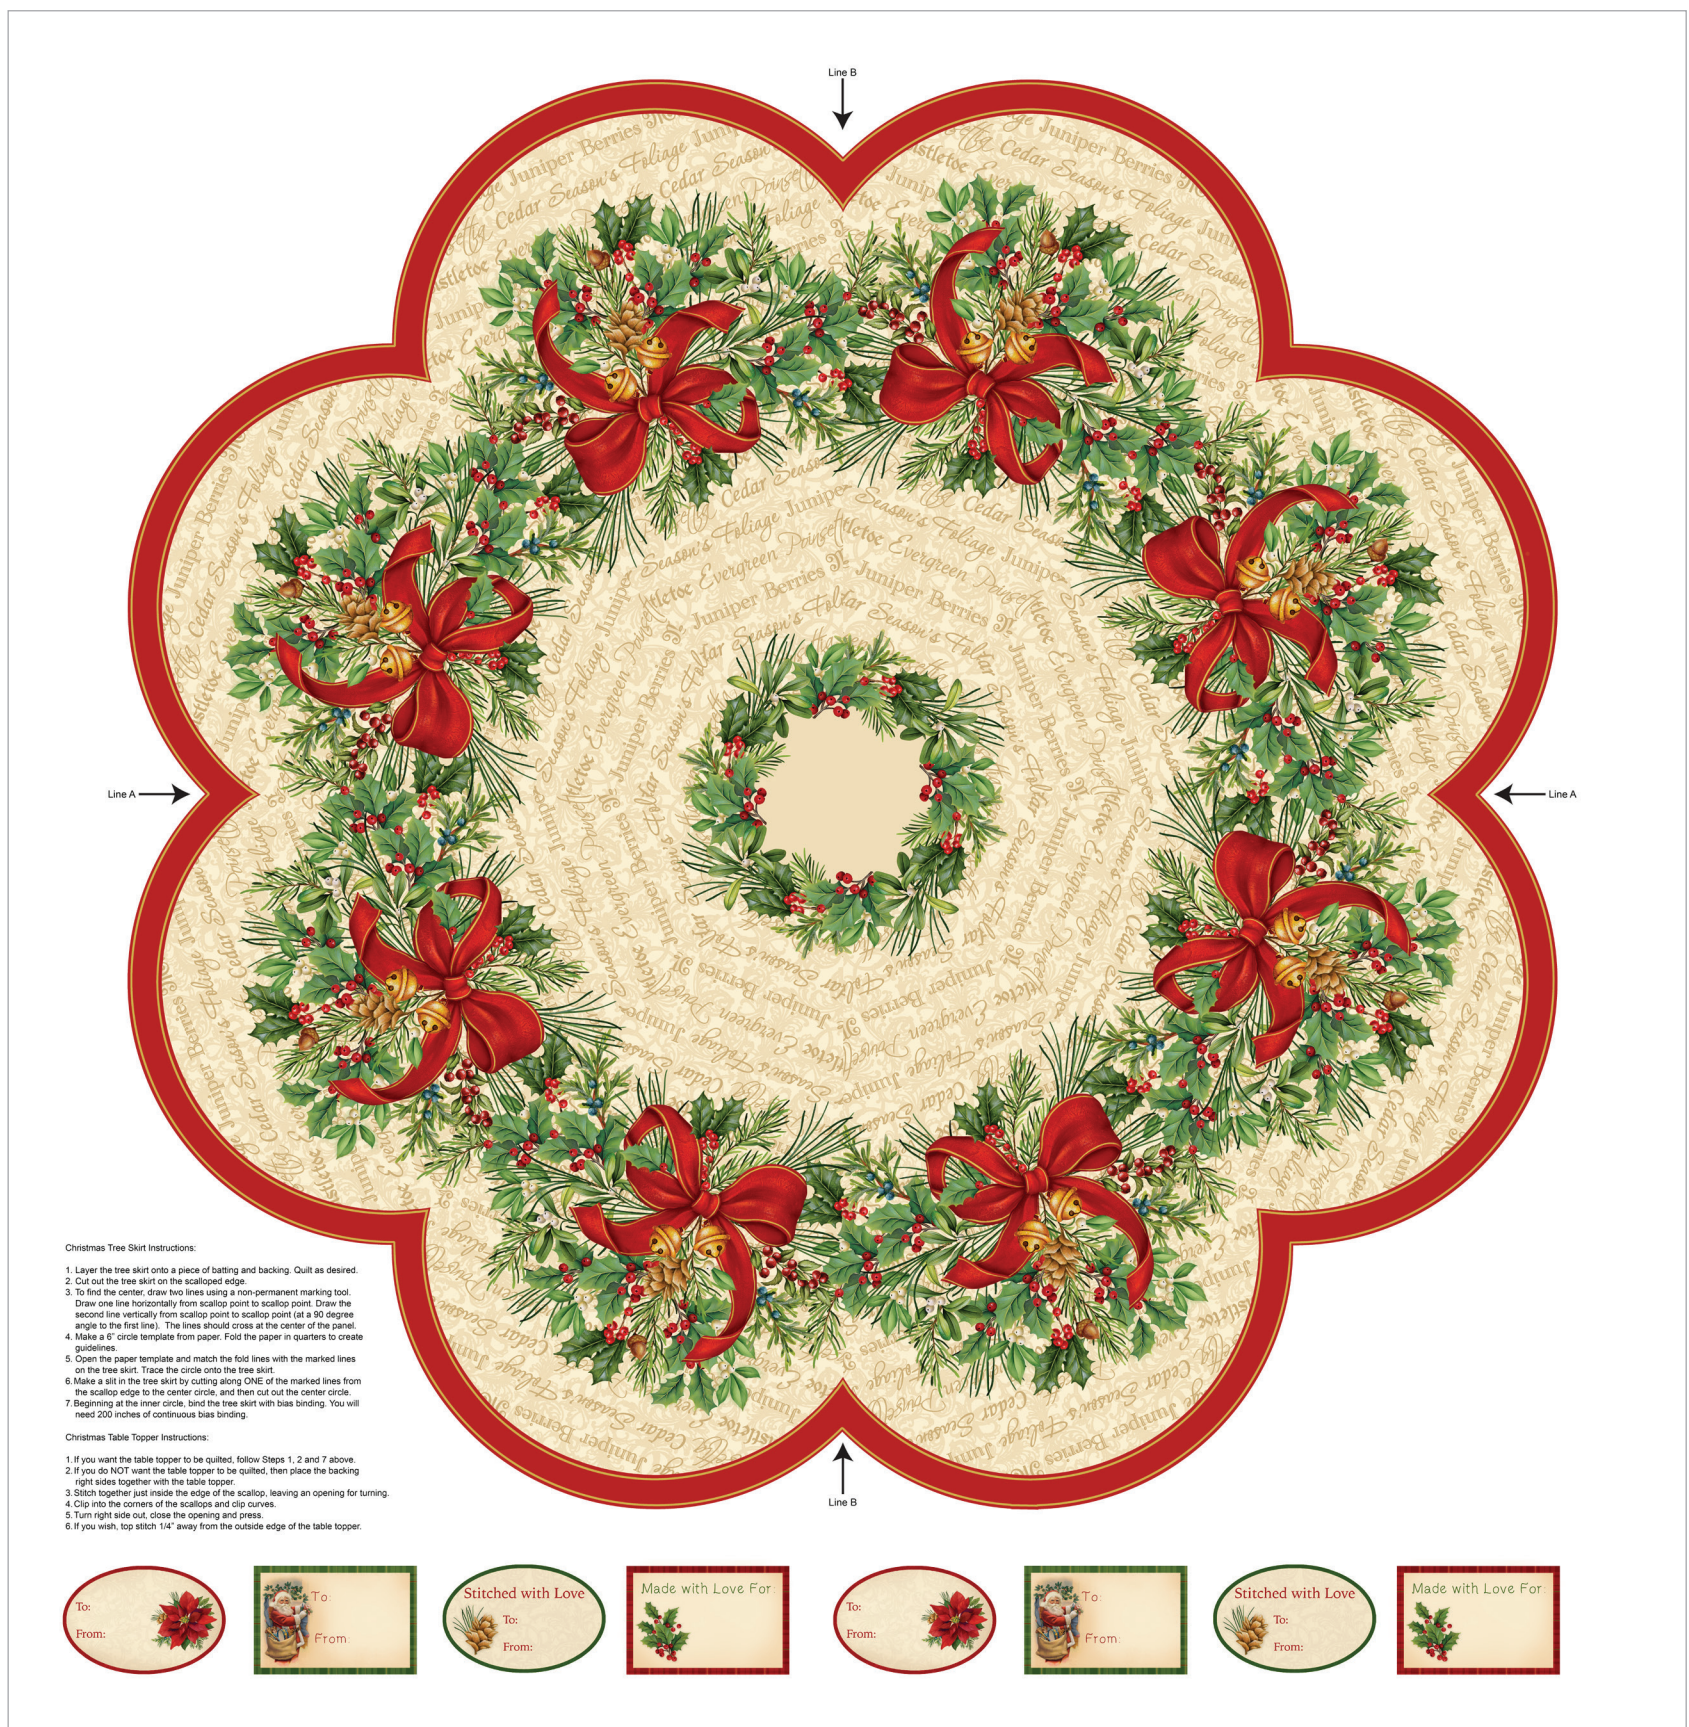

**Christmas Stocking Assembly Instructions:**

1. Layer the stockings onto a piece of batting and quilt as desired.
2. Cut out the stockings at the edge of the design (seam allowance is included in the stocking design).
3. Using the stockings as a guide, cut out four pieces of lining for each stocking.
4. Match up a front and back stocking piece. With right sides together, stitch around the edge of each stocking using a 1/4" seam allowance, leaving the top open.
5. Turn the stocking right side out and press.
6. Match up two lining pieces. With right sides together, stitch around the edge of the stocking lining using a 1/4" seam allowance. Leave the top open and leave a 4" opening in the bottom of the foot so you can turn the stocking inside out.
7. Place the right side out, working inside the wrong side out lining, matching up the side seams and ensuring the foot is pointing in the same direction. Insert a hoop of ribbon at the center back seam so it's locked between the lining and the stocking. (The edge of stocking and ribbon should line up).
8. Stitch around the top and turn right side out through the opening left in the lining. Machine or hand stitch the opening closed.
9. Push the lining inside the stocking and press.
10. Top stitch around the top edge of the stocking.
