# Whispering Pines

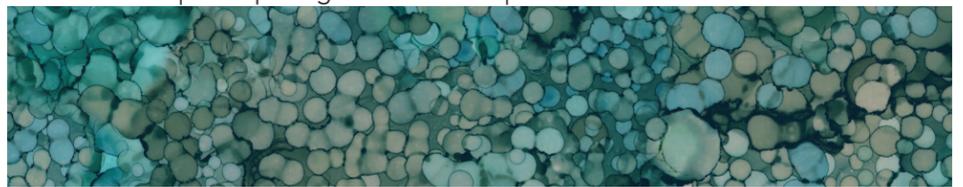

by Melanie Samra

Created by Melanie Samra, Whispering Pines embodies a natural habitat, undisturbed by the sprawl of the urban landscape. The featured panel and ombre trees play a starring role while an array of nature inspired prints including wildlife, pine trees, birch trees, leaves and branches play a supporting role. A multitude of exquisitely detailed textures and blenders complement the focal prints in a wide range of values. A palette of complex shades from the deepest blues, teals and browns to the softest tints of celadon and cream characterize the collection creating an atmosphere of quiet serenity.
