HOMEGROWN HAPPINESS

by Deborah Edwards

Created by Deborah Edwards, Homegrown Happiness was inspired by farm life and fresh air, a desire for the simplicity of daily life and a connection to the land. The featured panel is an ideal centerpiece for a wall-hanging or a quilt, but can also be deconstructed and used in a variety of creative ways. A wide range of mix and match coordinates featuring farm animals, cow hide, barn quilts, barn board, gingham, toile, wheat and weathervanes are offered. The collection is beautifully illustrated in a palette of fresh country colors anchored with grounds of red, black and cream. A selection of existing Northcott crackle textures complete the coordination. Recreate a little heaven on earth with Homegrown Happiness!
