Café CULTURE by Nina Djuric

Who doesn't love coffee? And who doesn't love to meet up with friends at a quaint café? Created by Nina Djuric, Café Culture offers a little café culture with a nostalgic vibe. While some patterns are printed on a chalk board texture, others are printed on a burlap reminiscent of vintage coffee sacs in a palette ranging from chalk board black, coffee bean brown, tan and cream. The featured panel, a coffee house menu makes an ideal focal point in a quilt or quick and easy wall-hanging while the running yardage block print features popular coffee quips ideal for mug rugs, mini wall-hangings or quilt blocks. Tossed coffee cups, coffee beans and even coffee stains complement the showcased prints. Finish your quilt with a selection of Toscana blenders that coordinate beautifully with the collection.
