# Gray Wolf

by Kathy Goff

Created by renowned artist, Kathy Goff, Gray Wolf celebrates the nature's wild side with beautifully painted wolves. The wolves, featured in the panel, border stripe and all-over print are complemented by a wide variety of nature inspired patterns and textures by Deborah Edwards. The panel makes an ideal focal point but can also be deconstructed to create new and interesting blocks while the border print is ideal for framing your project. The collection is crafted in serene natural tones from soft whites and grays to dark browns and blacks providing dramatic contrast to any quilt. A selection of our best-selling Toscana blender complement this collection.
