# Avocado Love

by Northcott Studio

Created by the Northcott Studio, Avocado Love features an assortment of mix and match, multi-directional prints in a variety of sizes. The barcode stripe provides contrast and makes a great binding for any project. The collection also includes a quick sew tote panel printed on canvas, making an ideal reusable, earth friendly shopping bag or a fabulous gift. The panel can be deconstructed and used in a lap quilt or tabletop project. A striking palette of black, white, seafoam and avocado has a modern vibe, but works well with traditional style also. Whether young, or young at heart, the avocado trend has broad appeal. Coordinate Avocado Love with our Premium Colorworks solids!
