CAT TALES

by Charles Wysocki and Deborah Edwards

The beautifully illustrated focal pattern in Cat Tales features books, cats and curiosities in a 43" wide print that is running yardage providing maximum variety and flexibility. The original print was created by the late, very talented and prolific American artist, Charles Wysocki.

Inspired by the focal print, Deborah Edwards created a collection of patterns to complement the feature and at the same time, pay homage to Charles Wysocki. A wide variety of prints including books, cats and curiosities as well as masculine checks, woodgrain and leather are offered in cozy colors. Curl up with your favorite cat, a good book and a quilt made from Cat Tales! A selection of Toscana blenders coordinate beautifully with the collection.
