TEA FOR TWO

by Northcott Studio

Friendship shared over a simple cup of tea reached the height of elegance in the Victorian era and continues to charm us today. Tea for Two celebrates a shared cup of tea in true Victorian style with lovely china teacups, tea pots and tea plates combined with a selection of pretty, multi-directional florals and lace. The featured panel makes an ideal wall-hanging or focal point for a lap quilt for your favorite tea toddler. The placemat print with tea coasters is running yardage allowing you to make two, four or more to suit your needs and makes an ideal gift. The coordinating prints are ideal for an apron and tea cozy. Whether for yourself, or a gift for a friend, Tea for Two will enchant all with its feminine charm.
