Designed by Deborah Edwards, Dragonfly Dreams, is all a flutter with dragonflies dancing on pretty petals, creating a light-hearted, carefree ambiance. Dragonfly Dreams was fashioned using a combination of watercolor and alcohol ink techniques in a fresh palette of Raspberry Sorbet and Peach Melba with a twist of Grape Jelly. The neutrals offered in the collection add a quiet balance to the vibrant colors. In addition to the dragonfly and floral prints, a selection of exclusive, one-of-a-kind textures are offered in a wide range of values and colors. Let your creative spirit take flight when you combine the full width feature floral and textured ombres; both are running yardage. The collection also includes two existing Bliss blenders and a coordinated wide backing making the back of your quilt as beautiful as the front.
