Featuring prints from Jody Bergsma and coordinates from the Northcott's design duo, Deborah Edwards and Melanie Samra, Whale Song is a spectacular whale watching journey. The spectacular 28" orca panel, running yardage ombre and our ever-popular tote bag play a starring role in the collection while whales, sea life, inspirational words, and a stunning array of beautiful textures in a palette of ethereal blues, teals, turquoise, seafoam, and purple play a supporting role. Whether you live by the sea, or seek the tranquility of the water, you will be enchanted by Whale Song.
