FRONTIER STONEHENGE by Linda Ludovico

Created by renowned Stonehenge designer, Linda Ludovico, Frontier offers a sophisticated twist on a wild west theme where farmhouse style meets western in color, texture, and style. The main prints featuring wild horses in the mist are complemented by antique wagon wheels, vintage collector guns, horseshoes, petrified and distressed woods and a myriad of textures echoing a bygone era. Frontier combines warm and cool neutrals with heritage blue creating a soothing, ethereal effect found in wide open spaces. A selection of Stonehenge Surfaces patterns coordinate beautifully with the collection.
