Created by Shelley Davies, one of Northcott's newest talents, Color Collage offers curious collages, including the originals representing a rainbow of color including Blue, Green, Yellow, Orange, Red, Pink and Purple. New patterns include a rainbow stripe, Black and White, Sky and Sea and Earth. Patterns representing each color are completely unique; no two are alike. Each is like an I Spy print on steroids; they draw you in for hours as you discover a multitude of curiosities in each. These prints can be used alone, in pairs or all together. Mix and match with our best-selling Toscana blender or any of our Bold Beautiful Basics. Make a crazy quilt, blocks with sashing, or a bargello. The creative possibilities are endless!
