There is no Christmas like a Golden Christmas, featuring adorable Labrador puppies set in a Farmhouse style Christmas theme. Created by renowned artist, Jason Kirk with coordinates from Northcott. Golden Christmas includes an oversized 36" x 43" panel featuring an old red pickup truck converted into a Christmas market stall with adorable puppies waiting to be adopted. A variety of Labrador prints, Buffalo checks and wood planks as well as snowflakes are offered in a palette of red, tan, black and white creating a charming Farmhouse inspired Christmas. A selection of existing Crackle blenders complete the coordination.
