# Beecroft by Deborah Edwards

The first gift every mother receives from a child is a heartfelt bouquet of dandelions and daisies. Created by Deborah Edwards, Dandelions and Daisies summons fond memories of her children and weekends spent at Beecroft, the family hobby farm abundant with honeybees and hives. This charming collection is characterized by dandelions, daisies, bees, hives, and honeycombs. In addition to the featured print and border stripe, a wide selection of tossed prints are offered in charcoal, gray, white and sunshine yellow.
