

# STONEHENGE Monogram

by Deborah Edwards

Milky Way • 61" x 77" • Pattern includes 3 color options • By Kathryn Wilson Tucker of Next Step Quilt Designs • [www.nextstepquilt.com](http://www.nextstepquilt.com)

Stonehenge Monogram is a unique Stonehenge blender group created by Deborah Edwards. Monogram is offered in four different color palettes, which can be used alone or in combination to create neutral patterns. This collection includes an alphabet panel ideal for creating unique designs while combining the additional textural prints. A variety of existing Stonehenge Gradations coordinate beautifully with this collection, adding depth and contrast. Visit [www.northcott.com](http://www.northcott.com) to view the entire collection.
