### **BLOCK ASSEMBLY:**

1. Sew a Fabric F 2" x 8" sashing strip to both long sides of the center 4 ½" x 8" rectangle (Fabric B, C or D, depending on placement). Add a 4 ½" x 8" rectangle (Fabric B, C or D) to each side. Press all seams away from the sashing. Refer to quilt image for placement.
2. Sew a Fabric F 2" x 15 ½" sashing strip to one long edge of a Fabric A rectangle. Press seam away from the sashing.
3. Join the pieced 8" x 15 ½" rectangle assembled in Step 1 to the 8" x 15 ½" rectangle assembled in step 2 to complete the block. Press seam away from the sashing. Make twelve (12).

### **SASHING:**

1. Sew three 2" x 15 ½" sashing strips together with a 2" Fabric E square between each strip to make a 48 ½" sashing strip. Press seams away from the sashing. Make three (3).

### **QUILT TOP ASSEMBLY:**

1. Lay out the blocks for each row, turning the blocks as desired, or refer to quilt image for placement. Add one 2" x 15 ½" sashing strip between the blocks to create four rows of three blocks each. Press all seams away from the sashing.
2. Sew a 48 ½" sashing strip to the bottom of rows 1, 2 & 3 created in Step 1 above. Then sew the four rows together. Press all seams away from the sashing.
3. Measure the vertical length through the center of the quilt. Trim side sashing strips to that measurement. Match the center of the side sashing strips to the center of each side of the quilt and pin. Match the ends of the sashing strips to both ends of the quilt and pin. You may have to ease the sashing or the quilt. Sew the seams and press away from the sashing. Repeat this process for the top and bottom sashing using the width through the center of the quilt as your measurement guide. Press seams away from the sashing.
4. Using the same method as above, trim and attach the left & right side inner borders, then the top & bottom inner borders. Repeat for the left & right side outer borders, then the top & bottom outer borders. Press all seams away from the sashing.
5. Layer, quilt and bind as desired.
