

O Christmas Tree - Tree Skirt/Table Topper Panel

Instructions for Christmas Tree Skirt:

1. Layer the tree skirt onto a piece of batting and backing. Quilt as desired.
2. Cut out the tree skirt on the scalloped edge.
3. To find the center, draw two lines using a non-permanent marking tool. Draw one line connecting the arrows for line A and one line connecting the arrows for line B.
4. Make a 6" circle template from paper. Fold the paper in quarters to create guidelines.
5. Open the paper template and match the fold lines with the lines marked on the tree skirt. Trace the circle onto the tree skirt.
6. Make a slit in the tree skirt. Cut along ONE of the traced lines (behind the snowman to the center ONLY) and then cut out the center circle.
7. Bind the tree skirt with bias binding. You will need 200 inches of continuous bias binding (instructions on Northcott website).

Instructions for Christmas Table Topper:

1. If you want the table topper to be quilted, follow Steps 1, 2 and 7 above.
2. If you do NOT want the table topper to be quilted, then place the backing right sides together with the table topper.
3. Stitch together just inside the edge of the scallop, leaving an opening for turning.
4. Clip into the corners of the scallops and clip curves.
5. Turn right side out, close the opening and press.
6. If you wish, top stitch 1/4" away from the outside edge of the table topper.
