

Whispering Pines

by Melanie Samra

Whispering Pines by Melanie Samra features a magnificent 43" x 28" panel depicting a majestic stag overlooking a serene forest. This nature-inspired collection also offers an ombre mountain scene in a distinct watercolor style. Combine these with the coordinating motifs to create a range of projects that invoke an atmosphere of beauty and calm.

Whispering Pines is shipping to stores starting in October. Visit www.northcott.com to view the full collection, and contact your local quilt shop to see if they are carrying these fabrics!
